**Description**

Introducing the Manitou ULM 415 H, a versatile and efficient handling solution that redefines productivity. Equipped with a cutting-edge Harmony screen, this machine offers intuitive control and seamless operation through the JSM Joystick. The Automatic parking brakes ensure safety and ease of use, while the Mechanical seat provides comfort during extended use. With a remarkable 1500kg max capacity and an impressive 4.3m lifting height, this machine is designed to handle heavy loads with precision. The Hydrostatic transmission and 25km/h top speed ensure smooth performance and swift manoeuvrability. Additionally, the Rear window de-icing feature enables operation in varying weather conditions. The hydraulic flow of 48l/min enhances operational efficiency, making the Manitou ULM 415 H the ultimate choice for your lifting and handling needs.

- ✔ Harmony screen
