Description

Introducing the ZA-TS 4200, a cutting-edge mounted spreader designed to revolutionise your fertilisation process. Boasting a generous 4200-litre hopper capacity and an impressive working width range of 15 to 54 meters, this innovative spreader is engineered for high-output performance. The filling width of 2.72 meters and an overall width of 2.92 meters ensure efficiency in operation. The TS spreading unit facilitates excellent border spread patterns, complemented by the ISOBUS technology that enhances precision and control. The ZA-TS 4200 sets a new standard for fertilisation, offering unparalleled accuracy and productivity. Upgrade your agricultural practices with this state-of-the-art spreader, delivering optimal results for your fields.

- ✓ 15-54 Working width
- ✓ 2.72m Filling width
- ✓ Guard tube
- ✓ AmaTron 4
- ✓ Weight cell calibration
- ✓ 4200l Hopper capacity
- ✓ LED lights
- ✓ Mudguards
- ✓ Hydraulic disc drive
