### Description

Experience unparalleled precision and efficiency with the Amazone ZA-V 3200 Super Profis Spreader. Featuring a spacious 3200-litre hopper capacity, this spreader ensures extended operation with minimal refills. Navigate with ease using the headland limiter function for precise application at field edges. Simplify maintenance and optimize performance with the Easy Check test kit and Amatron 4 integration, offering advanced control and data management capabilities. Achieve accurate spreading with weight cell calibration for consistent results. Equipped with road lights, this robust spreader is ready for safe transport to and from the field. Elevate your spreading operations with the Amazone ZA-V 3200 Super Profis – the ultimate solution for maximizing productivity and crop yield.
