Description

Introducing the Can-Am Outlander DPS 1000R, a powerhouse ATV designed for exhilarating rides and exceptional performance. With a commanding 91 HP (68 kW) engine, it offers unmatched power and agility on any terrain. Equipped with 26-inch ITP Terracross tires and 14-inch cast-aluminium wheels, it ensures superior traction and durability, allowing you to conquer rough trails with ease. Experience precise handling with the Tri-Mode Dynamic Power Steering (DPS™), adapting to your riding preferences effortlessly. Enhanced with a heavy-duty front bumper and mudguards, it's built to withstand the toughest challenges. Illuminate your path with confidence using the bright LED lights, ensuring visibility in low-light conditions. Dominate the trails with the Can-Am Outlander DPS 1000R, your ultimate off-road companion
